

**Name:** Bracamonte, Samuel M.

**Section:** BT405

### **1. Motorcycle**

**Components:** Brake disc, Brake caliper, Front fork, Fender, Front wheel

### **2. Ceiling Fan**

**Components:** Blades, Motor Housing, Down rod, Capacitor, Mounting Bracket

### **3. Smartphone**

**Components:** Triple Camera System, USB-C Port, Titanium Frame, OLED Display, Ceramic Shield

### **Answer:**

It is important to know each component and parts as every component plays a role in overall functionality. Ensuring that each material is made with quality materials guarantees a reliable and durable product. Combining high-quality components with low quality ones can create noticeable imbalances, especially for those people who are particular about brands of the product.
